SnowPro-Core PDF Pass Leader, SnowPro-Core Latest Real Test
Valid SnowPro-Core Test Answers & SnowPro-Core Exam PDF

NEW QUESTION 60

Credit Consumption by the Compute Layer (Virtual Warehouses) is based on: (Choose two.)

- * Number of users
- * Warehouse size
- * Amount of data processed
- * # of clusters for the Warehouse

Explanation

<https://docs.snowflake.com/en/user-guide/credits.html#virtual-warehouse-credit-usage> “Snowflake credits are charged based on the number of virtual warehouses you use, how long they run, and their size.”

NEW QUESTION 61

What is the maximum compressed row size in Snowflake?

- * 8KB
- * 16MB
- * 50MB
- * 4000GB

Explanation

MAX size for compressed data for semi-structured data type is also 16 MB. That means if our table has a semi-structured data type column with 16MB data other columns will have NULL data.

NEW QUESTION 62

True or False: Data in Fail-safe can be deleted by a user or the Snowflake team before it expires.

- * True
- * False

NEW QUESTION 63

True or False: Fail-safe can be disabled within a Snowflake account.

- * True
- * False

NEW QUESTION 64

True or False: Data Providers can share data with only the Data Consumer.

- * True
- * False

NEW QUESTION 65

Which of the following objects can be cloned? (Choose four.)

- * Tables
- * Named File Formats
- * Schemas
- * Shares
- * Databases
- * Users

NEW QUESTION 66

When scaling out by adding clusters to a multi-cluster warehouse, you are primarily scaling for improved:

- * Concurrency
- * Performance

NEW QUESTION 67

Select the three types of tables that exist within Snowflake.

Choose 3 answers

- * Temporary
- * Transient

- * Provisioned
- * Permanent

NEW QUESTION 68

When loading data into Snowflake, the COPY command supports:

Choose 2 answers

- * Joins
- * Fitters
- * Data type conversions
- * Column reordering
- * Aggregates

NEW QUESTION 69

Increasing the maximum number of clusters in a Multi-Cluster Warehouse is an example of:

- * Scaling rhythmically
- * Scaling max
- * Scaling out
- * Scaling Up

NEW QUESTION 70

What is the minimum Snowflake edition that provides data sharing?

- * Standard
- * Premier
- * Enterprise
- * Business Critical Edition

NEW QUESTION 71

Which of the following objects is not covered by Time Travel?

- * Tables
- * Schemas
- * Databases
- * Stages

NEW QUESTION 72

True or False: A single database can exist in more than one Snowflake account.

- * True
- * False

NEW QUESTION 73

The Query History in the Snowflake Web Interface (UI) is kept for approximately:

- * 60 minutes
- * 24 hours
- * 14 days

- * 30 days
- * 1 year

NEW QUESTION 74

Which of the following commands sets the Virtual Warehouse for a session?

- * COPY WAREHOUSE FROM <<config file>>;
- * SET WAREHOUSE = <<warehouse name>>;
- * USE WAREHOUSE <<warehouse name>>;
- * USE VIRTUAL_WAREHOUSE <<warehouse name>>;

Explanation/Reference: <https://docs.snowflake.com/en/user-guide/warehouses-tasks.html>

NEW QUESTION 75

A deterministic query is run at 8am, takes 5 minutes, and the results are cached. Which of the following statements are true? (Choose two.)

- * The exact query will ALWAYS return the precomputed result set for the RESULT_CACHE_ACTIVE = time period
- * The same exact query will return the precomputed results if the underlying data hasn't changed and the results were last accessed within previous 24 hour period
- * The same exact query will return the precomputed results even if the underlying data has changed as long as the results were last accessed within the previous 24 hour period
- * The 24 hour timer on the precomputed results gets renewed every time the exact query is executed

NEW QUESTION 76

Which of the following commands sets the Virtual Warehouse for a session?

- * COPT WAREHOUSE FROM <<Config file> ;
- * SET warehouse = <<warehouse name>>;
- * USE WAREHOUSE <<warehouse name>>;
- * USE VIRTUAL_WAREHOUSE <<warehouse name>>;

NEW QUESTION 77

Which statements are true of micro-partitions?

Choose 2 answers

- * They are approximately 16MB in size
- * They are stored compressed only if COMPRESS=TRUE on Table
- * They are Immutable
- * They are only encrypted in the Enterprise edition and above

NEW QUESTION 78

Which object allows you to limit the number of credits consumed within a Snowflake account?

Select one.

- * Account usage Tracking
- * Resource Monitor
- * Warehouse Limit Parameter
- * Credit Consumption Tracker

NEW QUESTION 79

Which of the following are options when creating a virtual Warehouse?

Choose 2 answers

- * Auto-drop
- * Auto resize
- * Auto-resume
- * Auto-suspend
