

100% PASS RATE Nutanix Certified Associate NCA-5.15 Certified Exam DUMP with 92 Questions [Q10-Q31]

100% PASS RATE Nutanix Certified Associate NCA-5.15 Certified Exam DUMP with 92 Questions
Updates For the Latest NCA-5.15 Free Exam Study Guide!

Get to know about the Key Features of Nutanix NCA-5.15 Exam

The NCA-5.15 certification validates your skills in the Nutanix Certified Associate 5.15 field. This certification ensures that you have the required skills and knowledge to work with Nutanix solutions. Upon passing this certification, you will be able to earn a good salary and gain employment opportunities. **Nutanix NCA-5.15 Dumps** contains all the questions asked in the real exam. This means that you will not only be able to prepare for the exam, but you will also be able to pass the exam. The product has been created by our experts, who have years of experience in preparing candidates for the certification exams. Component Exam Preparation In order to succeed in any certification exam, you must be well prepared. All the updates in the exam are incorporated into the product. Node questions are compiled from the actual exam questions.

Demo exams are included in the product as well, which enables you to test your preparation skills before purchasing the full version. Navigate through the product carefully to ensure that you make the right choice. Additional Features In addition to providing you with real exam questions. Causing you will get success in the real exam. Task oriented questions ensure that you will be able to prepare effectively for the exam. Implementing all the updates in the exam is made easy for candidates who buy the product. Achieve great results by using our products. Replication of real exam scenarios enables you to know how the real exam will be conducted. Storage and network services are the most important topics in the exam.

NO.10 An administrator needs to group VMs by using a custom attribute. At the same time, this tag must not be used to configure other Nutanix services, such as Data Protection.

Which action in Prism Central should the administrator take?

- * Create a user defined category
- * Select VMs and create a new Label
- * Create a new Playbook
- * Create a new Catalog Item

NO.11 An administrator wants a VM to communicate with two separate VLANs. What steps should the administrator complete?

- * Add two NICs to the VM and configure one for each VLAN
- * Add a single NIC to the VM and configure it for both VLANs
- * Turn on IPAM for autoconfiguration of VLANs
- * Configure a Security Policy to assign VLANs to the VM

NO.12 Which Nutanix component can be placed into a third site, in order to assist the primary and secondary sites during a failure event?

- * Backup Server
- * Witness VM
- * Prism Central
- * Controller VM

NO.13 A customer requires the ability to block all network traffic between their VDI VMs and their application VMs running on their Nutanix AHV clusters.

What Nutanix product would meet this requirement?

- * Beam
- * Calm
- * Era
- * Flow

NO.14 An administrator expanded the disk capacity on a Windows VM, but the VM operator saw no difference in free space. Which additional step must the administrator take?

- * Reboot the Virtual Machine
- * Convert to a dynamic disk
- * Expand the current partition
- * Reconnects to iSCSi target

NO.15 Refer to the exhibit.

An administrator notices that the Data Resiliency Status of some components has been reduced to 0, making it impossible to support a node failure in the cluster.

What failed component caused this issue?

- * CVM
- * Disk
- * Node
- * Block

NO.16 Refer to the exhibit.

The screenshot shows a 'Data Resiliency Status' window with a title bar containing a question mark and a close button. Below the title bar, it says 'FAULT DOMAIN TYPE: HOST'. The main content is a table with three columns: 'COMPONENT', 'FAILURES TOLERABLE', and 'MESSAGE'. The table lists several components and their status:

COMPONENT	FAILURES TOLERABLE	MESSAGE
Static Configuration	1	
ZooKeeper	0	Desired fault tolerance for Zookeeper is 1 but we can tolerate only 0 node failure(s)
Stargate Health	0	Based on unhealthy node list (5,) the cluster can tolerate a maximum of 0 node failure(s)
Oplog	1	
Metadata	0	Metadata ring partitions with nodes: 192.168.1.33, 192.168.1.31, 192.168.1.32 are not fault tolerant.
Extent Groups	1	
Erasure Code	1	

An administrator notices that the Data Resiliency Statue of some components has been reduced to 0. making it impossible to support a node failure in the cluster.

What type of failure is most likely the cause of this issue?

- * Block
- * Disk
- * CVM
- * Nods

NO.17 Which Nutanix concept is responsible for accommodating and remediating node failure scenarios?

- * Life cycle management
- * Auto resolve mode
- * Data locality
- * Self healing

NO.18 An administrator needs to have a view of current workloads sorted by vCPU count.

What should the administrator do to achieve this task?

- * Create a New Dashboard adding the VMs widget
- * Use the Group function in prism Central
- * Create a new Analysis in Prism Element
- * Export the VM list in CSV and use an external tool

NO.19 What are two types of Protection Domains that Nutanix offers for Data Protection? (Choose two.)

- * Metro Availability
- * Snapshots
- * Async DR

* Consistency Group

NO.20 An administrator needs to expand a Nutanix cluster that is tagging the network traffic at the CVM and AHV level. However, the administrator doesn't remember the configured VLAN ID.

Which command can the administrator run to find the correct VLAN ID from the CVM?

- * ifconfig
- * manage-ovs
- * acli
- * ovs-vsctl

NO.21 Protection Domains enable administrators to replicate which two items for Disaster Recovery? (Choose two-)

- * Volume Groups
- * Virtual Machines
- * File Shares
- * Disk Images

NO.22 Refer to the exhibit:

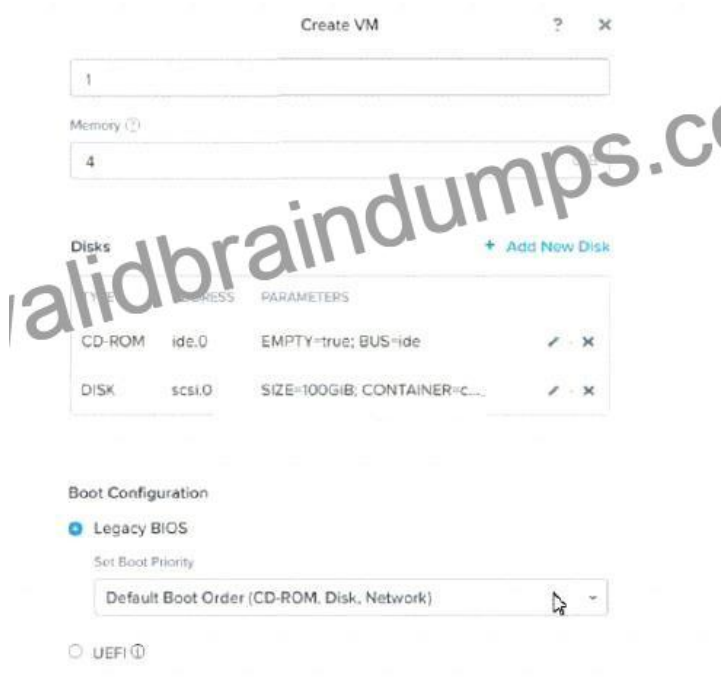

Based on the exhibit what can be definitively determined about Host DEMO-AHV-2?

- * it has performed more on-disk lookups than the other nodes.
- * Its cache is undersized compared to the other nodes.
- * The system memory is undersized.
- * It is hosting a higher quantity of VMs than the other nodes.

NO.23 An administrator has been asked to add 200 virtual machines to their existing Nutanix cluster. Which Nutanix product will help them plan for this addition capacity?

- * Beam
- * Prism Pro
- * Era
- * Calm

NO.24 Refer to the exhibit.

The reference exhibit above is from a newly-created VM. When the administrator powers on the VM.

GuestOS installation is not happening What is causing this issue?

- * Network boot is happening
- * The GuestOS installer is corrupted
- * The SCSI disk is corrupted
- * GuestOS installer is not loaded in the CD-ROM

NO.25 An administrator has been asked to investigate performance issues for a business critical application. The application runs on a single VM. What is easiest way for the administrator to begin troubleshooting this issue?

- * On the Analysis page, create an entity chart with all metrics included
- * On the Health page, look for Critical or Warning alerts for the VM.
- * Review the metrics charts on the Prism Element Home page
- * Review the VM Performance tab for the VM in Prism Element

NO.26 Which statement best defines Replication Factor 2 (RF2)?

- * Data will be written locally, and a second copy then will be replicated to another cluster
- * Data will be written locally, and a second copy to another disk group
- * Data will be written locally, and a second copy goes to a remote site
- * Data will be written locally, and a second copy goes to another node in the same cluster

NO.27 How can an administrator access a Windows VM running on a Nutanix cluster if it is unreachable via ping?

- * Connect using Xi Frame
- * Open a Virtual Console through Prism Central
- * Connect using RDP
- * Open a Virtual Console through Prism Element

NO.28 Which two Nutanix features offer the ability to restore a VM? (Choose two.)

- * Data Protection
- * Nutanix Leap
- * Nutanix Flow
- * Site Recovery Manager

NO.29 A developer requests that a VM connects to a block device from an older ISCSI disk array, in order to support an application being transitioned to Nutanix.

What should the Nutanix administrator do to complete this task?

- * Use Flits to map a network drive letter.
- * Add the VM to the whitelist to allow it to access the block device.
- * Use Volumes to add the device as a drive letter.
- * Add the array to the whitelist to access the storage container directly.

NO.30 An administrator needs to provide users access to Prism Central Projects Which source of user accounts must the administrator use?

- * Open LDAP
- * Active Directory
- * Local users
- * SAML2 Provider

NO.31 A mission critical application with four VMs have been deployed inside of a six-node Nutanix cluster. An alert is generated that a node in the cluster has failed and is no longer online. After the alert, two of the VMs reboot and come back online on another node.

Which feature, when configured, would have prevented the two VMs from rebooting?

- * Host Anti-Affinity
- * VM High Availability
- * Host Affinity
- * Protection Domain

What are the Passing Score, Duration & Questions for the Nutanix NCA-5.15 Exam - Number of Questions: 50 questions- Time Duration: 90 minutes- Languages: English, Japanese, and simplified Chines.- The passing score: 50%

Get to know about the benefits of Nutanix NCA-5.15 Exam

The Nutanix NCA-5.15 certification validates your skills in the Nutanix Certified Associate-5.15 field. It ensures that you have the required skills and knowledge to work with Nutanix solutions. **Nutanix NCA-5.15 Dumps** can be used to prepare for the exam. Serving as a guide will help you prepare for the exam. The material provided in the product is updated regularly. Factor in all the updates and keep yourself ahead of the competition. In order to get the best possible results from this product, you must be prepared. Online Support All of the products we offer are well supported. Resiliency is ensured by our customer support team. Unit tests are conducted regularly to ensure that you receive the latest updates in the product. Hosted on our servers. You can study anytime and

anywhere. The administrator, user, and customer support team are ready to help you whenever you need them. Chassis is a virtualized environment that has been specially designed to make it easy for you to work with. It is simple and quick to use.
