

## SAP C\_IBP\_2202 Certification All-in-One Exam Guide Nov-2022 [Q26-Q46]

### SAP C\_IBP\_2202 Certification All-in-One Exam Guide Nov-2022 [Q26-Q46]

#### SAP C\_IBP\_2202 Certification All-in-One Exam Guide Nov-2022 Get Real C\_IBP\_2202 Exam Dumps [Nov-2022 Practice Tests NEW QUESTION 26

Analytics charts are created by the user in the Advanced Analytics application. What actions are possible in the Advanced Analytics app?

Note: There are 2 correct Answers to this question.

- \* Group data.
- \* Merge charts together.
- \* Open graphics in Excel.
- \* Apply filters on your data.

#### NEW QUESTION 27

How can you check if key figure is editable or non-editable?

- \* Using the Web-based Planning app when selecting key figures
- \* Using the Key Figure Calculations app
- \* Using the Edit View and then the Edit Planning View option

- \* Using the Analytics Advanced app when selecting key figures

### NEW QUESTION 28

Where can we see the results of Time Series analysis in SAP IBP?

- \* Time Series Property Attribute in Customer Source
- \* Time Series Property Attribute in Customer Product
- \* Time Series Property Attribute in Customer
- \* Time Series Property Attribute in Product

### NEW QUESTION 29

Which features apply to quota violations modeled with the optimizer?

- \* Quotas require sourcing ratios to be maintained.
- \* Min and Max Quotas have to be the same as sourcing ratios.
- \* Quota violation cost is maintained as an attribute as a key figure.
- \* Quotas can be modeled for sourcing location, production, and consensus demand.

### NEW QUESTION 30

You are modeling the introduction of a new product using Lifecycle Planning functionality in SAP IBP. What is mandatory to create in your planning area for the setup of reference product(s) to work?

Note: There are 2 correct Answers to this question.

- \* Planning objects for the new product
- \* Definition of an attribute representing the product ID
- \* Definition of Actual Sales business meaning for one key figure
- \* Definition of an attribute representing the product description

### NEW QUESTION 31

You want to set up demand sensing to analyze demand changes in execution or close to execution windows.

Which of the following conditions must you consider during the setup? Note: There are 2 correct Answers to this question.

- \* At setup test the system to run the demand sensing (full) algorithm weekly and the demand sensing (update) on a daily basis.
- \* The result generates sensed demand data at the monthly time granularity for the full time horizon
- \* Set up the forecast model to be executed at product-location level.
- \* It is mandatory to load historical lag-based snapshot data.

### NEW QUESTION 32

You define fixing for a key figure. Which of the following functions are available for this key figure? Note:

There are 2 correct Answers to this question.

- \* Fixing is possible for manually editable key figures.
- \* Fixing is possible for a certain quantity of a key figure value.
- \* Fixing is possible for a certain period, including all child values in the hierarchy.
- \* Fixing is possible for system editable key figures.

### NEW QUESTION 33

What type of key figure requires a planning level to have all attributes as roots?

- \* The conversion key figure, such as exchange rate
- \* The special key figure marked as an aggregate key figure
- \* The time independent key figure, such as FCSTMAPE
- \* The attribute transformation key figure, such as PERIODID1

#### **NEW QUESTION 34**

Which of the following are functions of SAP IBP for demand? Note: There are 3 correct Answers to this question.

- \* Detailed statistical analysis of demand data using the supply chain algorithm library
- \* Embedded, on-the-fly demand analytics
- \* Demand sensing of demand data using the supply chain algorithm library
- \* Detailed statistical analysis of demand data using predictive analytics tools
- \* Demand sensing of demand data using predictive analytics tools

#### **NEW QUESTION 35**

NO.53 Which calculations can be processed within the pre-processing step in the forecasting model? Note:

There are 2 correct Answers to this question.

- \* Rounding can be executed for the sales history.
- \* Missing Values can be substituted.
- \* Promotion Sales Lift Ups can be deleted.
- \* Correlations can be evaluated.

#### **NEW QUESTION 36**

You are working on a mid-range plan that spans the seasonal peak and you are evaluating the need for additional crewing. Which of the following parameters can you model to plan production with extra shift(s)?

- \* Incremental production values
- \* Capacity expansion with additional costs
- \* Production source validity at the start of seasonal peak
- \* Adjusted production interactive values

#### **NEW QUESTION 37**

When can filter blocks appear in calculations? Note: There are 2 correct Answers to this question.

- \* When using IFISNULL statements in the formula
- \* When modeling cross-period calculations
- \* When modeling attribute as a key figure
- \* When modeling attribute transformations

#### **NEW QUESTION 38**

You are modeling a substitution scenario associated with a promotion. What are some of the Master Data parameters that you need to maintain to ensure desired results generated by the optimizer?

Note: There are 2 correct Answers to this question.

- \* Flag &#8216;Disable Substitution of Location Products

- \* Loc-Prod Subst Valid-From Date
- \* Promotion duration
- \* Location Product Sub Cost Rate

#### NEW QUESTION 39

What setting is mandatory in the Manage Lifecycle Planning app when introducing a new product?

- \* Define which phase-in and phase-out profiles can be used within Lifecycle Planning
- \* Define which key figure can be used as sales history for new products
- \* Define at least one attribute of the planning area which represents the Product ID
- \* Define which is the attribute ID for the Lifecycle profiles

#### NEW QUESTION 40

Which of the following is one of the functions of multi-echelon inventory optimization?

- \* Ability to optimize delivery costs between different locations
- \* Ability to optimize lead times between different locations
- \* Ability to maintain high external service levels with low internal service levels
- \* Ability to maintain high external service levels with high internal service levels

#### NEW QUESTION 41

What does ABC/XYZ segmentation allow you to do? Note: There are 2 correct Answers to this question.

- \* Assign more appropriate inventory algorithms to planning objects.
- \* Tailor your forecast strategy and inventory optimization to segment characteristics.
- \* Identify inventory items that require closer attention.
- \* Analyze forecast accuracy by product class.

#### NEW QUESTION 42

Which of these conditions must be met to create a Local Member key figure?

- \* A key figure is created in the Planning Area app.
- \* Use Excel Cell References in Report Editor is selected.
- \* A key figure is selected in the Key Figures tab in the Microsoft Excel add-in.
- \* Activate Local Member Recognition is selected.

#### NEW QUESTION 43

You want to restrict value entries outside of a specified range into a key figure. What setting will you use to achieve that goal?

- \* IBP -> Lock Selected cells in IBP Formatting Sheet tab
- \* By restricting data input in the Key Figure Configuration app
- \* Select Protect Active Worksheet in the About section of SAP IBP tab
- \* IBP -> Data Validation in IBP Formatting Sheet tab

#### NEW QUESTION 44

The Analytics Advanced app allows you to work with different types of charts. What can be the origin of the charts you can work with?

- \* SAP IBP VBA Add-in template
- \* Process Templates

- \* Custom Alerts
- \* Dashboards Advanced

#### **NEW QUESTION 45**

Which header name displays are available in the Report Options menu of the SAP IBP Excel interface? Note:

There are 2 correct Answers to this question.

- \* Changed member names that the user had created
- \* Caption, as defined in configuration for the default name
- \* Business meaning, as defined in configuration
- \* Full unique name including the dimension and technical name

#### **NEW QUESTION 46**

What function would you use to configure a year-to-date calculation?

- \* Cumulative Aggregation
- \* Dynamic Rolling Aggregation
- \* Rolling Aggregation
- \* Last Period Aggregation
