

C-SACP-2316 Exam Study Guide Free Practice Test LAST UPDATED DATE Nov 07, 2023 [Q15-Q36]

C-SACP-2316 Exam Study Guide Free Practice Test LAST UPDATED DATE Nov 07, 2023 The New C-SACP-2316 2023 Updated Verified Study Guides & Best Courses QUESTION 15

What is supported when you use the New Model for planning? Note: There are 3 correct answers to this question.

- * Using a default model currency
- * Creating a measure using simple moving average
- * Using a currency variable
- * Defining a model without an account dimension
- * Viewing formula results in the modeler

QUESTION 16

You are using validation rules. What can you do after a property value change?

- * You can publish an invalid combination.
- * You can delete an invalid combination.
- * You can change an invalid combination.

QUESTION 17

You want to create an input task using a story based on a planning model. What are prerequisites for this scenario? Note: There are 2 correct answers to this question.

- * The model has a private version.
- * The model contains private dimensions.
- * The story is shared.
- * The model is shared.

QUESTION 18

How can you use a data action to copy data from one version to another while keeping the account number the same? Note: There are 2 correct answers to this question.

- * Include a parameter for version in the filter and 'to'; and 'from'; parameters for the account dimension in the copy rules.
- * Include a parameter for version and account in the filter section of the data action.
- * Include 'to'; and 'from' parameters for version and account in the copy rules.
- * Include a parameter for account in the filter and 'to'; and 'from'; parameters for version in the copy rules.

QUESTION 19

Which of the following actions on the date dimension are available in Value Driver Trees?

- * Specify a presentation date range.
- * Select the day granularity
- * Change the date filter for an individual node within the Value Driver Tree

QUESTION 20

You imported a transaction data file into an empty model with the results as shown in Figure A. Later, a member of the finance team wants you to import a new data file. In the new data file, you find the following differences: The value of the Labor account has increased to 1600. There is a new record for the Services account, with a value of 250. The record for the Travel account has been deleted. To achieve the result shown in Figure B, which option must you use to update the data?

Fig. A

Data Foundation					Version: Actual
Account	Date	Currency	POSD_CostCenter	Value	
Benefits	202001	USD	HR	250	
Labor	202001	USD	HR	1500	
Travel	202001	USD	HR	500	

Fig. B

Account	Date	Currency	POSD_CostCenter	Value	
Benefits	202001	USD	HR	250	
Labor	202001	USD	HR	1600	
Services	202001	USD	HR	250	
Travel	202001	USD	HR	500	

- * Update
- * Append: Reject duplicated rows in model
- * Clean and replace selected version data

- * Clean and replace subset of data with Scope = Version and Account

QUESTION 21

You enter plan values by year and product group. You want to allocate these values to months and products in proportion to last year's actual data. What dimension do you add to the allocation process to achieve this?

- * Add date as a source dimension.
- * Add date as a reference dimension.
- * Add product as a source dimension.
- * Add product as a reference dimension.

QUESTION 22

You have a planning model with the following dimensions: Cost Center Account Date Version. When you add new transactional data to your model, you want to add new data for cost center A and remove any records for cost center B. Which import method do you use?

- * Clean and replace selected version data
- * Update
- * Append
- * Data actions and allocations

QUESTION 23

In a rolling forecast table, what can be used to determine the date to cut over to plan data?

- * Current and next table filter
- * New calculation input control
- * Current and next input control

QUESTION 24

In which of the following user interfaces can you perform planning activities? Note: There are 2 correct answers to this question.

- * Analytic application
- * Microsoft Excel
- * Google Sheets
- * Mobile app

QUESTION 25

You are creating a new story. You do not see the version management option in the menu. What is the reason?

- * You did not enable the story for planning
- * You did not add a table used for planning
- * You do not have the plan admin role.
- * You have only responsive pages in the story.

QUESTION 26

For which of the following are value driver trees available? Note: There are 2 correct answers to this question.

- * Analytic models
- * Planning models
- * Datasets

- * Live models

QUESTION 27

What dimension property can be used when setting up data locking?

- * Reviewer
- * Person responsible
- * Manager
- * Owner

QUESTION 28

You want to rebuild an SAP Analytics Cloud classic planning model but the Rebuild Model button is inactive. Why might this happen? Note: There are 2 correct answers to this question.

- * Data exists in the model.
- * Currency conversion is enabled.
- * A public version is used in the model.
- * A private version is used in the model.

QUESTION 29

Where can you use time series forecasting in SAP Analytics Cloud? Note: There are 2 correct answers to this question.

- * Story table
- * Bar chart
- * SAP Analytics Cloud, add-in for Microsoft Office
- * Smart Predict

QUESTION 30

You are using an advanced data action to copy Northeast (NE) data to Northwest (NW) as shown in the attached image. What must you activate in the advanced data action to achieve the desired result for profit center PC4?

The image contains three screenshots of SAP Analytics Cloud data tables, each with a caption above it. The tables show data for Profit_Center across different regions (NE and NW) and versions (All_PC, PC1, PC2, PC3, PC4, PC5, PC6). The columns are Version, Account, Revenue, and Book. The data is as follows:

Version	Account	Revenue	Book
All_PC	1,000.00	2,000.00	
PC1	1,000.00	500.00	
PC2	1,000.00	500.00	
PC3	1,000.00	500.00	
PC4	-	500.00	
PC5	-	-	
PC6	-	-	

This is the data before running the advanced data action

Version	Account	Revenue	Book
All_PC	3,000.00	3,500.00	
PC1	1,000.00	1,000.00	
PC2	1,000.00	1,000.00	
PC3	1,000.00	1,000.00	
PC4	-	500.00	
PC5	-	-	
PC6	-	-	

This is the unwanted result after running the advanced data action. The existing PC4 value of 500 is retained.

Version	Account	Revenue	Book
All_PC	3,000.00	3,000.00	
PC1	1,000.00	1,000.00	
PC2	1,000.00	1,000.00	
PC3	1,000.00	1,000.00	
PC4	-	0.00	
PC5	-	-	
PC6	-	-	

This is the desired result after running the advanced data action. The existing PC4 value of 500 is retained.

- * Overwrite
- * Unbooked
- * Signflip

QUESTION 31

What are some steps in a Finalize Phase performed by planning report users? Note: There are 2 correct answers to this question.

- * Review and approve Calendar tasks
- * Activate the validation rules
- * Create planning tables
- * Set data locks

QUESTION 32

You have labor hours in an expense model and labor rates in the HR model. To calculate and store labor values (labor hours x labor rates) in the expense model, what must you do? Note: There are 2 correct answers to this question.

- * Copy the labor rates into the expense model.
- * Look up the labor rates in an advanced data action.
- * Blend labor hours and labor rates in the story.
- * Include the labor hours and labor rates in a dimension formula.

QUESTION 33

When training a smart predict model, which entity has the most accurate forecast?

- * Athletic Shorts – US: Expected MAPE 1382.81 %, influencer count 1
- * Athletic Shorts – EMEA: Expected MAPE 7.16%, influencer count 1
- * Athletic Shorts – Pacific: Expected MAPE 12.84 %, influencer count 2

QUESTION 34

You want to create a copy data action that allows you to select the source and target values for the following dimensions at run time: Version, Account, Time. What do you specify for each of these dimensions?

- * No Filter Source and target parameters for version in the filter Source and target parameters for version, account, and time in the copy rules
- * Source and target parameters for version, account, and time in the copy rules
- * Source version parameter in the filter
- * Source and target parameters for account and time in the copy rules

QUESTION 35

You have a New Model that only contains local currency values. When the New Model is used in stories, you need model-configured group currency values that are not stored in the database. What type of measure would you include in the New Model to meet the requirement?

- * Conversion
- * Restricted
- * Calculated

QUESTION 36

What is required in an allocation process to allocate occupancy expenses to cost centers based on square footage occupied in the previous year?

- * Table formula
- * Reference dimension
- * Dimension formula
