- * Sales document type
- * Item category
- * Copy control
- * Schedule line category

QUESTION 35

What is the purpose of the partner type in partner determination?

- * To identify whether a partner is mandatory in the business transaction
- * To represent the roles the partners play in the business transaction
- * To identify the area of master data in which the partner's details are stored
- * To assign the partner number in the customer master

QUESTION 36

Which statements apply to SAP CoPilot? Note: There are 2 correct answers to this question.

- * SAP CoPilot enables you to access and work with SAP applications using your natural language
- * SAP CoPilot can only access and work with an SAP S/4HANA system.
- * SAP CoPilot runs on a separate server and completely replaces the SAP Fiori launchpad.
- * SAP CoPilot is SAP's digital assistant and bot integration hub for the entire enterprise.

QUESTION 37

You are creating a sales order with reference to a quotation and want to be able to change the sold-to party.

Where do you maintain the setting to allow this?

- * In the business partner sales and distribution view
- * In the copy control's copy requirements
- * In the definition of the sales document type for the quotation
- * In the definition of the sales document type for the order

QUESTION 38

If changes are made to the customer master data after sales document creation, which of the following will be updated automatically in the sales document?

- * Confirmed delivery date
- * Delivering plant
- * Address
- * Pricing

QUESTION 39

You want to combine items from different sales orders into one delivery document. Which fields need to have the same values in every sales order item you want to combine? Note: There are 2 correct answers to this question.

- * Transportation zone
- * Shipping point
- * Incoterms
- * Terms of payment

QUESTION 40
