SAP C_TFG61_2405 Exam Syllabus Topics:

TopicDetails
Topic 1- Analytics and Integrations: This C_TFG61_2405 exam topic will assess the abilities of administrators to configure reporting, manage report audit trails, and use advanced analytics. You'll also need to show proficiency with the types of available integrations and the Connector Set Up Wizard.
Topic 2- Configuration, System Tools, and Messaging: Prepare for questions related to the configuration manager, key terms associated with the configuration menu, contextual help, reason codes and list views. SAP Fieldglass administrators will be tested on using the system audit trail and email notification status, creating a home page announcement, and messaging configuration options.
Topic 3- Services Procurement Transactions: SAP Fieldglass administrators will be evaluated on their understanding of the services module transactions, including SOW characteristics, statuses, and invoicing processes. Expect questions on creating and managing SOW bids and understanding their key concepts.
Topic 4- Supplier and Workflow: SAP Fieldglass administrators will need to demonstrate expertise in creating and managing suppliers, understanding buyer-supplier activities, and configuring workflows. Expect questions on supplier qualification templates, inactivation, and setting up approval workflows, including amount-based approvals. Lastly, the topic focuses on limiting the PMO dashboard view and setting up approval groups.
Topic 5- Users: In this topic, SAP Fieldglass administrators will be tested on their abilities to create and manage users in SAP Fieldglass, along with handling access issues and setting up signature authority. SAP C_TFG61_2405 exam candidates must ensure they are confident with troubleshooting user access, delegation, and supervisor functionality.
